

The 2014 Proposal and Award Policies and Procedures Guide (PAPPG) requires that all awardee organizations submit a Program Income Reporting Sheet beginning March 1, 2014 in order to report the amount of program income earned and expended as of September 30, 2013. Each year thereafter, awardee organizations will be required to submit the Program Income Reporting Sheet by November 14 in order to report the amount of program income earned and expended as of the end of the previous Federal fiscal year.

Program income is gross income earned by the awardee organization that is directly generated by a supported activity or earned as a result of NSF-funding. This would include things such as fees for services performed, the use or rental of real or personal property acquired under the grant, the sale of commodities or items fabricated under the grant, and license fees. Interest earned on advances of Federal funds is not program income.
