

Any NSF recipient of higher education that receives a new award or a funding amendment on an existing award on or after May 20, 2024, is required to submit a Foreign Financial Disclosure Report (FFDR). The FFDR must be submitted to NSF **regardless of whether your organization receives financial support** from a foreign country of concern. For more details, see [Foreign Financial Disclosure Report \(PAPPG\)](#).

The submission window to report foreign support from countries of concern (see [PAPPG Chapter VII.D.3](#) for additional information) received between July 1, 2023, and June 30, 2024, **opens on July 1, 2024**. While the PAPPG and Award Terms and Conditions stipulate that the FFDR is due on July 31, 2024, NSF is providing a one-time grace period for the initial report until **September 3, 2024, at 5:00 p.m.** (based on the submitting organization's local time).

Foreign Financial Disclosure Report (FFDR) Preparer Role

- FFDR must be prepared and submitted in Research.gov by an individual with an FFDR Preparer role.
- NSF has assigned the FFDR Preparer role to all individuals with the Authorized Organizational Representative (AOR) role effective May 20, 2024. Organizational Administrators can add or remove the FFDR Preparer role for individuals within their organization as appropriate.

Preparing a Foreign Financial Disclosure Report in Research.gov

1 FFDR Preparer accesses the Foreign Financial Disclosure Report portal in Research.gov.

Two ways to access:

- FFDR Preparer can use the Foreign Financial Disclosure Report (FFDR) page link included in the FFDR system-generated emails from NSF and sign into [Research.gov](#). See appendix for example emails.
- FFDR Preparer can sign into [Research.gov](#) and then click the Foreign Financial Disclosure Report (FFDR) link under "Manage Financials" on the Research.gov homepage.

View of Research.gov Homepage (after sign-in)

- Users without the FFDR Preparer role will see the link; however, it will have a lock icon and can only be accessed by users with the FFDR Preparer role.

The screenshot shows the Research.gov homepage with several sections: Proposals, Reviews & Meetings, Awards & Reporting, Fellowships, Manage Financials, and Administration. The 'Manage Financials' section is highlighted with a red box, and the 'Foreign Financial Disclosure Report (FFDR) (CHIPS & Science Act of 2022)' link is highlighted with a blue box. A callout box points to this link with the text: "Institutions of Higher Education that received a new award or funding amendment on an existing award on or after May 20, 2024 will be required to submit a report".

Foreign Financial Disclosure Report link

2 FFDR Preparer clicks the Create Report button on the FFDR landing page to initiate a report.

- If the Create Report button is disabled, it means that a report has already been created for the Institution of Higher Education (IHE). **All FFDR Preparers from the same organization can view and modify the same report.**
- Only one report can be created in Research.gov for each IHE registered in the System for Award Management (SAM) and issued a Unique Entity Identifier (UEI).
- Foreign Financial Disclosure Report(s) table will display all submitted and in-progress FFDR annual reports.

3 FFDR Preparers navigated to the report main page to prepare a negative or a positive report.

- Top section of report main page displays important details. Any user with the FFDR Preparer role and associated with the submitting organization can access, edit, or submit the report.
 - **Organization Details:** Name and address of IHE from SAM (**Note:** *National Science Foundation is being used as the example IHE in this how-to guide for demonstration purposes only.*)
 - **Created By:** Name of FFDR Preparer who created the FFDR
 - **Last Updated By:** Name of FFDR Preparer who last updated the FFDR
 - **Due Date:** While the PAPPG Award Terms and Conditions stipulate that the FFDR is due on July 31, 2024, NSF is providing a one-time grace period for the initial report until **September 3, 2024, at 5:00 p.m.** (based on the submitting organization's local time) to submit the report.
- Report Actions:
 - **Check Error(s) and Warning(s):** Automated compliance checks will be run, and a page will be generated to display any compliance validation errors or warnings triggered by the FFDR.
 - **Delete Report:** This button will only display on the FFDR main page prior to submitting the report to NSF. Once a report is submitted in Research.gov, the FFDR Preparer will not be able to delete the report. Reports also cannot be withdrawn after submission to NSF.

4 FFDR Preparers prepare and submit either a negative or positive report (*follow the relevant instructions below*).

Preparing and Submitting a Negative Report

FFDR Preparers can prepare and submit a negative report by following four short, easy steps:

- A. Select "No" for **Foreign Source Ownership and Control for Question 1** if the IHE, or any part thereof, is not owned or substantially controlled by a foreign source.
- B. Select "No" for **Foreign Source Gifts and Contracts for Question 2** if the IHE does not have Foreign Source Gifts and Contracts from a foreign source based in a country of concern with a cumulative value of \$50,000 or more per source during the reporting period.
- C. Click the **Submit Report button**.
- D. Certify and click the **Sign and Submit button**.
