! If this is a Final Annual Project Report, Please Note: The final annual project report is a vital, and required, part of the award closeout process. By submitting the report, you are indicating that the scope of work for the project has been completed and you do not anticipate any further action on the award, including a no cost extension, supplemental funding, nor transfer (PI Transfer). If you have questions regarding your award, please contact your cognizant Program Officer, or the Division of Grants and Agreements official listed on your award notice.

| CW A.1-2 | N | <p>What is the difference between an Annual, Final Annual, Interim and Project Outcomes Report?</p> <p>Annual Project Reports Annual Project Reports (APRs) are required for all multi-year grants including Standard and Continuing Grants and Cooperative Agreements. Unless otherwise specified in the grant award, annual project reports should be submitted electronically no later than 90 calendar days prior to the end of the current reporting budget period. In the case of continuing grants, failure to submit timely reports may delay processing of funding increments. Failure to submit timely reports will delay processing of additional funding and administrative actions, including, but not limited to, no cost extensions. All Annual Project Reports for each reporting period must be completed prior to submission of a Final Annual Project Report.</p> <p>Final Annual Project Report Final Annual Project Reports (FAPRs) are required for all Standard Grant, Continuing Grant, Cooperative Agreement and Individual Fellowship (Individual Institutions only and when applicable or cited in solicitations) award types. NSF awards require that the PI submit a Final Annual Project Report to the cognizant NSF Program Officer within no later than 120 calendar days following the end date of the award. The final annual project report is a vital, and required, part of the award closeout process. By submitting the report, you are indicating that the scope of work for the project has been completed and you do not anticipate any further actions on the award, including a no-cost extension, supplemental funding, nor transfer (PI Transfer). No actions are permitted on a project once the final annual project report has been approved. If you have questions regarding your award, contact your cognizant Program Officer or the Division of Grants and Agreements official listed on your award notice.</p> <p>Project Outcomes Report Project Outcomes Reports (PORs) are applicable to all Standard Grant, Continuing Grant and Cooperative Agreements. This report serves as a brief summary, prepared specifically for the public, of the nature and outcomes of the project. Unless otherwise specified in the grant, project outcomes reports must be submitted electronically via Research.gov no later than 120 calendar days following the end date of the award.</p> <p>Interim Project Report Interim Project Reports (IPRs) are not required and are used to update the progress of a project any time during or before the award period ends. An Interim Report can be submitted at anytime and does not count as an Annual or Final Annual Project Report.</p> <p>Interim project reports are rarely required, but they are an optional mechanism to provide additional information to the program officer. If required, these reports will be specified in the cooperative agreement or solicitation.</p> <p>For more information on the Project Reports System requirements, please refer to Chapter VII.D of the PAPPG.</p> |

| Copy ID | CMS? | Copy |
|-----------|------|--|
| CW B.3-1 | N | The information provided in this section allows the agency to assess whether satisfactory progress has been made during the reporting period |
| CW B.3-1a | | <p>For NSF purposes, the PI should provide accomplishments in the context of the NSF merit review criteria of intellectual merit and broader impacts, and program specific review criteria specified in the solicitation. Please include any transformative outcomes or unanticipated discoveries as part of the Accomplishment section.</p> <p>The PI is reminded that the grantee is required to obtain prior written approval from the awarding agency grants official whenever there are significant changes in the project or its direction. See agency specific instructions for submission of these requests.</p> <p>For purposes of NSF, please see the About Notifications and Requests page in Research.gov for a complete listing of Grantee Notifications To and Requests For Approval From the National Science Foundation.</p> |
| CW B.3-3 | N | Generally, the goals will not change from one reporting period to the next. However, if the awarding agency approved changes to the goals during the reporting period, list the revised goals and objectives. Also explain any significant changes in approach or methods from the agency approved application or plan. |
| CW B.3-3a | | For purposes of NSF, what are the major research goals and objectives of the project? |
| CW B.3-4 | N | As the project progresses, the emphasis in reporting in this section should shift from reporting activities to reporting accomplishments. |
| CW B.3-5 | N | Training activities may include, for example, courses or one-on-one work with a mentor. "Professional development" activities result in increased knowledge or skill in one's area of expertise and may include workshops, conferences, seminars, study groups, and individual study. Include participation in conferences, workshops, and seminars not listed under major activities. |
| CW B.3-5a | | For NSF purposes, please summarize the contributions to the research and teaching skills and experience of those who have worked on the project, including undergraduate students, graduate students, postdoctoral scholars, college faculty, and K-12 teachers. If your project supported postdoctoral scholars or graduate students, then you must include a summary of the mentoring activities conducted. |
| CW B.3-6 | N | Describe how the results have been disseminated to communities of interest. Include any outreach activities that have been undertaken to reach members of communities who are not usually aware of these research activities, for the purpose of enhancing public understanding and increasing interest in learning and careers in science, technology, and the humanities. |

1.8. B.4.6 - PI - Report Entry: Products – Patent Applications

The screenshot shows the 'Submit New Patent Applications' page on Research.gov. The page has a header with the NSF logo and navigation links. A dark blue navigation bar contains 'My Desktop', 'Prepare & Submit Proposals', 'Awards & Reports', 'Manage Financials', and 'Administration'. The main content area is titled 'Submit New Patent Applications' with a small '1' icon next to it. Below the title is a '< Back to Products' link. The form contains several required fields: 'Patent Status' (a dropdown menu), 'Patent Abstract' (a text area), 'Patent Title' (a text field), 'Patent Number' (a text field), 'Country' (a dropdown menu), 'Application Date' (a date picker), and 'Date Issued' (a date picker). At the bottom of the form are 'Save' and 'Cancel' buttons. A yellow callout box labeled 'CW B.4-6' points to the 'Submit New Patent Applications' title.

| Copy ID | CMS? | Copy |
|----------|------|---|
| CW B.4-6 | | Identify patent applications with date that have resulted from this research. Submission of this information as part of the interim or final research performance progress report is not a substitute for any other patent reporting required under the terms and conditions of an award. |

1.9. B.4.6.1 - PI - Report Entry: Products – Inventions

The screenshot shows the 'Submit New Invention' page on Research.gov. At the top, there is a navigation bar with links for 'My Desktop', 'Prepare & Submit Proposals', 'Reporting', 'Manage Financials', and 'Administration'. Below this is a header for 'Submit New Invention' with a back arrow icon. A yellow callout box labeled 'CW B.4-6.1' points to this header. The form contains three main sections: 'Required fields' with an 'Invention Title' text input; 'Invention Description' with a large text area; and 'Inventor(s)' with another text area. At the bottom left, there are 'Save' and 'Cancel' buttons.

| Copy ID | CMS? | Copy |
|------------|------|---|

Add New Participant

< Back to Participants

*** Required fields**

* First Name:

* Middle Name:

* Last Name:

* E-mail Address:

* Most Senior Project Role:

* Nearest Person Month Worked: A person month equals approximately 160 hours of effort, regardless of funding source.

* Contribution to the Project:

* Funding Support:

* Identify whether this person is collaborating internationally on this project: Yes No

Country(ies) of foreign collaborator: Required if yes

AFGHANISTAN
ALAND ISLANDS
ALBANIA
ALGERIA

* Traveled internationally for this award: Yes No

CW B.5.1-1a (points to NSF Specinfo icon)

CW B.5.1-1 (points to First Name field)

CW B.5.1-2 (points to Funding Support field)

Traveled internationally for this award

| Copy ID | CMS? | Copy |
|-------------|------|--|
| CW B.5.1-1 | | <p>Provide the name and identify the role the person played in the project. Indicate the nearest whole person month (Calendar, Academic, Summer) that the individual worked on the project. Show the most senior role in which the person has worked on the project for any significant length of time. For example, if an undergraduate student graduates, enters graduate school, and continues to work on the project, show that person as a graduate student, preferably explaining the change in involvement.</p> <p>Describe how this person contributed to the project and with what funding support. If information is unchanged from a previous submission, provide the name only and indicate “no change”.</p> <p>Identify whether this person is collaborating internationally. Specifically is the person collaborating with an individual located in a foreign country and whether the person had traveled internationally as part of that collaboration and duration of stay. The international country(ies) should be identified.</p> |
| CW B.5.1-1a | | <p>Deletion or Addition of the PI or co-PI(s) associated with this award must be requested through the Notifications and Requests module located in Research.gov. For purposes of NSF, identify whether this person is collaborating internationally on this project.</p> <p>Example:</p> <p>Name: Mary Smith</p> <p>Project Role: Graduate Student</p> <p>Nearest person month worked: 5</p> <p>Contribution to Project: Ms. Smith has performed work in the area of combined error-control and constrained coding.</p> <p>Funding Support: The Ford Foundation (Complete only if the funding support is provided from other than this award.)</p> <p>Collaborated with individual in foreign country: Yes</p> <p>Country(ies) of foreign collaborator: China</p> <p>Traveled internationally for this award: Yes</p> <p>If traveled internationally, duration: 5 months of stay</p> <p>Note: All participants will receive a notification via email to provide demographic information.</p> |
| CW B.5.1-2 | | <p>A list of any other funding support, other than this award, that supported the participant’s participation in the project.</p> |

Award 2009509
Annual Project Report

Available Actions: Submit Report, Check Report Completeness, Preview Report, View Help

Report Content: Cover, Accomplishments, Products, Participants/Organizations, **Impact**, Changes/Problems

Impact - What is the impact of the project? How has it contributed?

INSTRUCTIONS - This component will be used to describe ways in which the work, findings, and specific products of the project have had an impact during this reporting period.

For NSF purposes, include, where appropriate, discussion of data resources and the acquisition of data skills. Include the emergence of new career paths, such as data scientists, or new disciplines.

If there is nothing significant to report during this reporting period, please check "Nothing to Report" if applicable.

* Required fields

* What is the impact on the development of the principal discipline(s) of the project?

Describe how findings, results, techniques that were developed or extended, or other products from the project made an impact or are likely to make an impact on the base of knowledge, theory, and research and/or pedagogical methods in the principal disciplinary field(s) of the project.

Nothing to report

Characters Remaining: 8000

* What is the impact on other disciplines?

Describe how the findings, results, or techniques that were developed or improved, or other products from the project made an impact or are likely to make an impact on other disciplines.

Nothing to report

Characters Remaining: 8000

* What is the impact on the development of human resources?

Describe how the project made an impact or is likely to make an impact on human resource development in science, engineering, and technology.

Nothing to report

Characters Remaining: 8000

CW B.6-1

CW B.6-2

CW B.6-3

CW B.6-3a

CW B.6-4

CW B.6-4a

What was the impact on teaching and educational experiences? ⓘ CW B.6-5

Describe how the project made an impact or is likely to make an impact on teaching and educational experiences.

Nothing to report

Characters Remaining: 8000

What is the impact on physical resources that form infrastructure?

Describe ways, if any, in which the project made an impact, or is likely to make an impact, on physical resources that form infrastructure, including physical resources such as facilities, laboratories, or instruments.

Nothing to report

B *I* U | | | | |

Characters Remaining: 8000

CW B.6-6

What is the impact on institutional resources that form infrastructure? ⓘ NSF Specific CW B.6-6

Describe ways, if any, in which the project made an impact, or is likely to make an impact, on institutional resources that form infrastructure.

Nothing to report

B *I* U | | | | |

Characters Remaining: 8000

What is the impact on information resources that form infrastructure? ⓘ NSF Specific CW B.6-7

Describe ways, if any, in which the project made an impact, or is likely to make an impact, on information resources that form infrastructure.

Nothing to report

B *I* U | | | | |

Characters Remaining: 8000

What is the impact on technology transfer? ⓘ CW B.6-8

Describe ways in which the project made an impact, or is likely to make an impact, on commercial technology or public use.

Nothing to report

B *I* U | | | | |

Characters Remaining: 8000

| | | |
|-----------|---|---|
| CW B.6-2 | | <p>Describe distinctive contributions, major accomplishments, innovations, successes, or any change in practice or behavior that has come about as a result of the project relative to:</p> <ul style="list-style-type: none">• the development of the principal discipline(s) of the project;• other disciplines;• the development of human resources;• physical, institutional, and information resources that form infrastructure;• technology transfer (include transfer of results to entities in government or industry, adoption of new practices, or instances where research has led to the initiation of a start-up company); or• society beyond science and technology. |
| CW B.6-3 | N | <p>Summarize using language that an intelligent lay audience can understand (Scientific American style).</p> <p>How the field or discipline is defined is not as important as covering the impact the work has had on knowledge and technique. Make the best distinction possible, for example, by using a "field" or "discipline", if appropriate, that corresponds with a single academic department (i.e., physics rather than nuclear physics).</p> |
| CW B.6-3a | | <p>For NSF purposes, the paragraph should read, How the fields or disciplines are defined is not as important as covering the impact the work has had on knowledge and technique.</p> <p>For NSF purposes, provide description of postdoctoral mentoring, graduate student mentoring, or other mentoring.</p> |
| CW B.6-4 | | <p>For example, how has the project:</p> <ul style="list-style-type: none">• provided opportunities for research and teaching in the relevant fields;• improved the performance, skills, or attitudes of members of underrepresented groups that will improve their access to or retention in research, teaching, or other related professions;• developed and disseminated new educational materials or provided scholarships; or• provided exposure to science and technology for practitioners, teachers, young people, or other members of the public? |
| CW B.6-4a | | <p>For purposes of NSF, this should address "all efforts to broaden participation in science and engineering."</p> <p>For purposes of NSF, how has the project "provided opportunities for research, teaching and mentoring in science and engineering areas."</p> |
| CW B.6-5 | | <p>For example, has the project:</p> <ul style="list-style-type: none">* developed and disseminated new educational materials;* led to ideas for new approaches to course design or pedagogical methods; or* developed online resources that will be useful for teachers and students and other school staff? |

| | | |
|-----------|---|---|
| CW B.6-6 | | <p>Including:</p> <ul style="list-style-type: none">* institutional resources (such as establishment or sustenance of societies or organizations); <p>including:</p> <ul style="list-style-type: none">* information resources, electronic means for accessing such resources or for scientific communication, or the like. |
| CW B.6-7 | | <p>including:</p> <ul style="list-style-type: none">• information resources, electronic means for accessing such resources or for scientific communication, or the like. <p>For NSF purposes, the institutional resources parenthetical language should read: (such as policies, practices, programs, or establishment or sustenance of societies or organizations); and information resources should include data services and preservation.</p> |
| CW B.6- 8 | N | <p>Including:</p> <ul style="list-style-type: none">• transfer of results to entities in government or industry;• instances where the research has led to the initiation of a start-up company; or• adoption of new practices. |
| CW B.6-9 | N | <p>For example, in areas such as:</p> <ul style="list-style-type: none">• improving public knowledge, attitudes, skills, and abilities;• changing behavior, practices, decision making, policies (including regulatory policies), or social actions; or• improving social, economic, civic, or environmental conditions. |
| CW B.6-10 | N | <p>Describe what percentage of the award's budget was spent in foreign country(ies) for this reporting period. If more than one foreign country was involved, identify the distribution of funding between the foreign countries.</p> <p>U.S.-based recipients should provide the percentage of the budget spent in the foreign country(ies) and/or, if applicable, the percentage of the budget obligated to foreign entities as first-tier subawards.</p> <p>Recipients that are not U.S.-based should provide the percentage of the direct award received, excluding all first-tier subawards to U.S. entities. If applicable, provide separately the percentage of the budget obligated to non-U.S. entities as first-tier subawards.</p> |
